We are here in an emergency.

When tragedy struck the Twin Pines Manor apartment complex, Sunnyvale Community Services was there.

As the emergency assistance agency for the residents of Sunnyvale, we were called in immediately when 169 people lost their homes to a fast-moving fire at their apartment complex on April 15th. We’ve been working around the clock to help each family and senior move into safe and affordable housing.

Since 1970, we have worked to prevent homelessness and hunger, thanks to the generous support of our local community.

How can you help?

- Make a general donation on our website at www.svcommunityservices.org to help assist the most needy in our community year-round
- Drop off a gift card for Target, Safeway, or other local stores to help families get back on their feet
- Connect us with landlords and property managers who can offer housing for families and seniors

Thank you.

Note: We are not able to accept used clothing or furniture.
